

Online Forum: Academic Integrity and Ethics for Virtual Teaching and Learning

Abstract

Upholding academic integrity and ethics (AIE) is crucial to maintain quality education in the 21st Century, especially during the COVID-19 pandemic when virtual teaching and learning has become a critical part of the 'new normal'. To increase students' awareness, different universities/colleges have used technology to assist with the AIE issues. Based on an international collaborative project supported by the United Board, this workshop is organized to exchange the good practices and challenges of partner institutions in Philippines, India and Hong Kong, promoting a culture of impeccable academic integrity in Asian tertiary education contexts. Through an overview, virtual experience of Trail of Integrity and Ethics (TIE) and a panel discussion, participants of this online forum will learn more about the application of technology and approaches in facilitating AIE for VTL, as well as how teachers enhance students' awareness towards ethics issues in VTL contexts.

Topic : Reinforcing Academic Integrity and Ethics
for Virtual Teaching and Learning
Date & Time : Monday, 10 May 2021/15:00-16:30 (Hong Kong Time)
Venue : via ZOOM
